

Hosted Server Service

LOWERING COSTS, IMPROVING SERVICE AND INCREASING FLEXIBILITY

- It's the **flexibility** to work from wherever you are.
- It's **no up-front capital** expense for hardware or software
- It's the comfort of knowing your data is **safe and secure**
- It's the familiarity of Microsoft's products, on **enterprise-level** hardware.
- It's priced for small businesses on a **pay-as-you-use** basis

Phillipson Kennedy's Hosted Server Service is a ground-breaking way for small businesses to access the power of enterprise-level computing, while saving around 30% compared to the total cost of owning even a small server.

Built on a resilient HP BladeSystem infrastructure, with a SonicWall CDP backup solution, and hosted in our secure, dedicated datacentre, you can be sure your data is safe and accessible at all times.

BladeSystem

Built on HP BladeSystem servers for power, resilience, capacity and manageability

Hosted Server Service

CLOUD COMPUTING FOR SMALL BUSINESSES

Cloud computing has generated a lot of fuss in the media lately, but the ability to move systems out of the office, and save money, is a concept everyone is talking about.

Phillipson Kennedy's hosted server service makes this completely painless by providing a full Microsoft Windows and Microsoft Office environment, on a low-cost, monthly

contract basis. Because it is priced per user with no minimum contract, it will grow, and shrink, with your company.

Don't worry if you have your own software to add, either. Almost all types of software can be used with our hosted server services.

WHICH SERVICE DO I NEED?

KEY BENEFITS	SHARED	PORTABLE

Custom server-based services such as Blackberry server, MySQL, intranets or extranets	NO	OPTION

WHY HOSTED?

The Internet has become much more than just a network of networks. Now businesses are able to access a vast amount of processing power and storage too, at a far lower cost than investing in their own servers.

What's more, our Hosted Server Service provides you with an absolutely standard Microsoft Windows & Office environment - just like your desktop computer.

The only difference is that it all exists on a powerful managed server that is highly resilient and fully backed up, as well as accessible from any internet-connected computer in the World.

SAFE & SECURE

As a SonicWall Partner, Phillipson Kennedy uses class-leading security hardware, VPN and online backup technology

Microsoft Office

Choose Office Standard or Office Professional Plus
